

THE
FACADE GROUP

Jennifer M. Lein AIA, NCARB

jlein@facadegroup.com

Jennifer is a Building Enclosure Consultant with a strong technical background and 20 years of experience as an architect and project manager. Her projects range from large-scale educational and performing arts facilities to commercial and medical facilities.

Jennifer specializes in exterior envelope design and detailing, design process coordination, contract administration, construction administration, quality control, standards development and construction litigation support. Before joining The Facade Group, Jennifer was a member of the Quality Control committee at BOORA Architects for over 10 years. At The Facade Group she has focused her expertise on construction defect litigation cases, project management, contract review, and technical aspects of building design and construction.

Jennifer has a Bachelors of Architecture from North Dakota State University and a Masters of Architecture from the University of New Mexico. She is an active member of the AIA, the Portland Building Enclosure Council and is NCARB certified.
