

THE
FACADE GROUP

Jim Mounts

jmounts@facadegroup.com

Jim is a Project Manager and Architectural Detailer with a focus on curtain wall detailing and design. He has over 30 years of experience in the curtain wall industry. Having worked with premier glazing contractors, Jim has developed a broad level of skills in the execution of custom curtain wall projects.

Jim collaborates with Clients, Contractors, Engineers and Manufactures to develop workable design solutions to address performance, assembly and installation conditions. His practical experience is based on the drafting board and through first-hand involvement in shop and field problem solving. Emphasizing design efficiency, Jim's understanding of integrated design and materials guides his detailing work.

Jim's has experience monitoring quality control methods for unitized window systems through fabrication and assembly procedures review. He has performed mockup testing and trouble shooting of field conditions and he has a background in procurement and inspection of buy-out materials and services.
