

Mel Kroker

mkroker@facadegroup.com

Mel is a Building Enclosure Consultant and a nationally Certified Sustainable Building Advisor. He leads The Facade Group's sustainable building initiative.

Mel has a diversified background spanning academic, technical and construction experience. He has performed a broad range of design services including early site analysis, restoration of historic structures and all phases of architectural and interior design. Mel understands how to integrate complex mechanical, electrical and building systems into new and existing structures. Mel has extensive experience in forensic analysis and commissioning of building envelopes systems. He has a thorough understanding of the procedures required for thorough construction document peer review for today's high performance buildings.
